[Oscar e-commerce website user stories overview]

Report No. [US-01]

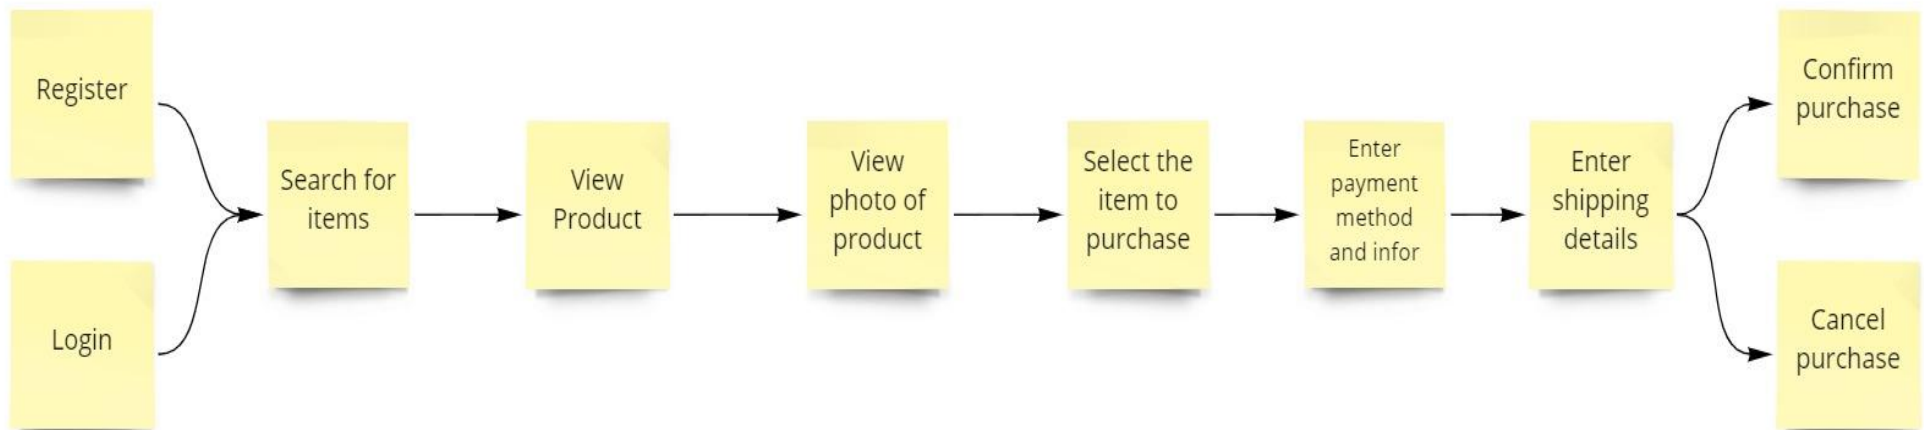

- Firstly, you should visit Oscar's documentation main page [here](#).

Real-time Oscar e-commerce functions:

Name	Activity Description
Authentication	signup/login/logout
Items for sale	User can view lists of items for sale and search by name, filter by price.
Shopping cart	User can add items to shopping cart and the app remembers it next time you login. User can view all the items in their shopping cart. User can delete items in the shopping cart. Shopping cart uses an integer column to store "state".
Checkout	User can fill in form and submit billing info. After submitting billing info, items in the shopping cart will move to a different "state"
